

•Programação detalhada do II WTDmat:

Primeiro dia : 17/10 (Quarta-feira)

8:00-8:50	Pagamento da Inscrição
9:00-9:40	On the fundamental domain of tetrahedral spherical space forms - Ana Paula Tremura Galves
9:50-10:10	Café - Traga sua caneca
10:10-10:50	Free structures in some division rings - Renato Fehlberg Júnior
11:00-11:40	Properties of the Fiber Cone - Pedro Henrique Apoliano Albuquerque Lima
11:50-13:50	Almoço
14:00-18:00	1º Evento sobre internacionalização no ICMC

Segundo dia : 18/10 (Quinta-feira)

8:40-9:20	Universal positive definite kernels - Victor Simões Barbosa
9:30-10:10	SRB measures and uniqueness of SRB measures for transitive diffeomorphisms on surfaces - Pouya Mehdipour Balagafsheh
10:20-10:40	Café - Traga sua caneca
10:40-11:20	Some results on pairs of involutions - Elizabeth Ruth Salazar Flores
11:30-12:10	Variational characterization of the Fučík spectrum for systems - Rafael Antônio Rossato
12:20-14:00	Almoço
14:00-14:40	Holonomy Invariant Measure - Jorge Luis Crisostomo Parejas
14:50-15:30	A study on the equation of Hénon - Maribel Rosa Bravo Quispe
15:40-16:00	Café - Traga sua caneca
16:00-16:40	New characterization of trivial maps in 3-dimensional real Milnor fibers - Taciana Oliveira Souza
16:50-17:30	Skew product semiflows and Morse decomposition - Matheus Cheque Bortolan

Terceiro dia : 19/10 (Sexta-feira)

8:40-9:20	Normal Form of reversible-equivariant vector fields - Iris de Oliveira Zeli
9:30-10:10	Atypical values and Morse-Sard type theorem - Luis Renato Gonçalves Dias
10:20-10:40	Café - Traga sua caneca
10:40-11:20	On the cohomological degree of maps between generalized manifolds - Norbil Leodan Cordova Neyra
11:30-12:10	Fractional Differential Equations: A Novel Study in Banach Spaces - Paulo Mendes de Carvalho Neto
12:20-14:00	Almoço
14:00-14:30	Premiação e Encerramento
16:30	Confraternização
